ABOUT LUNEΔ

WWW.LUNEΔMUSIC.COM

LuneΔ is a art-pop band dedicated to the craft of songwriting.

For them, melodies, emotions, and the musical journey are more important than anything else.

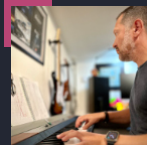

Following the critical success of their previous album, *From Above* (2024) — a tribute to 1970s progressive rock — they return with a new record that aims to restore the word "progressive" to its original meaning, moving beyond the "Prog" genre as a fixed musical style.
